## BACnet Mobile Solutions

**THE PRESENT IS MOBILE**

[WWW.BACMOVE.COM](http://WWW.BACMOVE.COM) Firme Web Inc.

We are specialized in the development and integration of solutions to use the BACnet protocol into today mobile devices such as iPhone and Android devices.

#### **BACNET EXPLORER**

BACnet Explorer BACmove is the browser to discover and control BACnet networks from your Android device. Whether you want to control, test, read, write your BACnet devices or panels, this app has you covered. It will allow you to always be ready to access your system.

#### **BACNET HMI HMI5**

The BACnet HMI, HMI5 application for iOS/iPhone/iPad and Android devices is a new way to control and visualize building systems directly from the high-end touch device that people are using every day.

BACnet HMI5 allows you to create modern interface with the help of the most recent technology of the web, HTML5, CSS3 and JavaScript.

#### **DEVELOP BACNET APP QUICKLY**

The same BACnet communication used by our apps is available to our clients to build personalized app for iOS, Android, Universal Windows Platform (UWP) and more. Clients can then build fully customized app to meet their need or easily integrate BACnet communication in an existing one. We can also develop app for all the mobiles platforms either in Objective-C, Java, hybrid HTML5 or C#.
